OF RESTAURANT AND REAL OF COMM. 18440 F. HAZAR Dåri Newport AMOS D. BHITH, of Frovidence, CHARLES ALLEN, of Kurifflingelows,

After the return of the Artillery Company, of this town, from the celebration on the 5th, at Providence, we heard rumors that they had not been well treated by the Committee of Arrangements; we could hardly believe this, for we knew that the gentlemen composing the committee would not be guilty of a rude thing,-and we knew also that the Providence people were proud of this ancient Company; not knowing the exact truth of the matter, we have said nothing in regard to it-The following correspondence, which we find in the Providence Journal, ex. plains the whole matter.

The Artitlers and themselves to Providence upon the condition that the Providence Commmittee would pay them one hundred dollars for the use of the Band the Band to be placed in whatever part of the Procession the Committee thought best. This was the proposal on the part of the Committee, and the proposal was accepted by the Company; and when it came to the fulfilment of the agreement, the Newport Artillery backed out from their contract. This is the whole story, in a not shell; we think that the Committee acted perfectly right, and that the Artillery were entirely wrong; and such is the general epinion in this community, among all who are disinterested, and who understand the facts in the case. After reading the following correspondence, therefeertainly cannot be any doubt in regard to the matter. The Artillery ought to have remained at home, and then they would not have been thus mortified; let them learn by experience :--

Jearn by Esperience
To the Editor of the Journal:
As many of our citizens have expression should ed the wish that am explosition should be given to the public relative to the altair of the Newport Artillery Compon the 5th inst., the undersigned leave to present through the columns of your paper, that pertian of the corresyour paper, that parties of the corres-pondence between the Committee and Cot. Perry, in relation to the cause of the difficulty that ensued on that occa-sion, as also to give some other facts muching the case, which occurred after the company came into line, and before they had been ordered to leave by the Committee:

To Col. C. G. Pary. The Committee of Arrangements for the celebration of the approaching anni-versary of our National Independence, respectfully extend an earnest invitation to the company under your command to join the procession which they propose to have on that occasion, and they me to my that if you are accompa me to my that it you are accompanied by the Fort Band, they will appropriate one hundred dollars for the use of the company, the band to be located in the procession by the Committee. They would suggest, however, that it would be gratifying to hear from the band in the atternson on the Cove Promenade, the alternoon on the Correliance if agreeable to the company.

S. C. Blander, for the Committee.

From Col. C. G. Perry.

June 22, 1852.

The invitation of the Committee of for the cel anniversary of American Independence in the city of Providence, was laid be-fore the Newport Artillery last evening tore the Newport Arthery sant evening, and they manimously voted to accept the same, and join the escort in Providence, on that day, on the terms proposed in your note. The United States: Band will accompany us, and I have no doubt will be happy to play for you in the aftersoon as you request. I shall be glad to meet the wishes of the Comhe glad to meet the wishes of the Com-mittee as to the place of the band in the processes, and would however, suggest that they would prefer to be with the military.

To S. G. Blodget, &c.
When the procession was tormed and
rendy to move, Chief Maranal Taylor
called on Col. Perry, and wished the
Fort Band to take the position assigned
them in the procession. Col. Perry rethem in the procession. Col. Perry re-plied, "If you take the band I shall leave the line." The Marchal reported to us the above. We immediately called in a body on Col. Perry, and re-monstrated with him, he being unwill-ing to takill him cantract as agreed in his letter. He ordered his commandito leave, the line. The Committee, with witnesses, called on the leader of the band to saccritain his views in the matband to ascertain his views in the inat-ter. He stated that they had no post of kionor, me right, no left, and they were willing to play wherever they were or-dered, but were under the direction of

to The gayety, wealth, inchion and intelligence of the cities is rapidly pouring it upon as now; our hotels present a very gay appearance, for all is life and commotion there.

On Sunday, evening, Rev. Dr Choules delivered a very able and in teresting Discourse on the life and ser vices of Henry Clay. It was attentively listened to by a crowded and intelligen andience ; we noticed many of our summer visilors in the congregation. The discourse occupied about an hour and a half in its dellyery, and was as minute in its details as time would allow, considering the very long period Mr. Clay eccupied a prominent position in the country, and the multiplicity of his distinguished acts. Portions of this dissource were truly splendid, and equalied anything which we ever heard in public,-we allude particularly to the introductory remarks, and those in regard to the three Benatoral plants of the age,-Clay, Calhoun and Webster,-Dr. Choules' description of each was graphic, eloquent and just.

by During the last two weeks Newton Brothers have put up five hundred gations of liquor per day, in demijohne, &c.; this is beside what they have sold in large quantities. The spirits are in motion, and do not have to be called ires the vasty deep.

We are indebted to Newton Brothers for a beautifully bound volume entitled, "Departed Spirite"; we have not examined its contents, but are satisfied that it is a choice and spirited work, -it is in quari-o size, and dedicated to Hon. Amos C. Baretow. These vol. umes are designed entirely for the Libraries of the Sons of Temperance and the advocates of the Maine Law. The Mesers, Nawton disposed of 300 volumes of this work yesterday. They will issue a new work this morning entitled Fluide, with an illustration;" also, an essay on "Spiritual Despotism," by Neal Dow, dedicated to the Pope of Rome.

MT Yestersey, one of the most rabid Maine Law men in this vincinity went into one of our Liquor stores, and purchased 18 gallens; of Banta Cruz Rum and 10 gallons of Holland's Gin,-and requested to have it sent to his house in the evening. Oh, what a sad commentary is this on the depravity and hypocracy of human nature! What kind of punishment will ultimately be dealt out to such men, whose duplicity is worse than the sin of beastly intoxication.

By letters from the Turkish Abassador received in New York, it appears that arrangements are making for sending a Turkish steam-frigate to New York with the various productions and fabrics of Turkey, for the exhibition at the Crystal Palace.

Execution.—Two murderers, named Adams and Bellisle, were hung at New Orleans on the 2d inst. At the first trial, the ropes slipped from their necks and they fell filtern feet. On being restored to consciousness, they were hung again, and this time successfully.

Hosson's Choice.-The expres of " Hobson's Choice" is proverbial both in Europe and America. The story of its orig'n is as follows:

Thomas Hobson was a celebrated carrier at Cambridge, England, who, to his employment in that capacity, ad ded the profession of supplying the students with horses. In doing this, he made it an unalterable rule that every horse should have an equal portion of time in which to rest, as well as labor; and he always refused to let a horse out of his turn. Hence the saying," Hobson's choice: this or none."
